

- Litigist
- Money is debt. They are interchangable.
 - Money supply & Debt of U.S. correlate.
 - If all debt were paid off there would be no money.
 - Why is there interest? Where are the "monies" coming from to pay interest? It comes from nowhere. New money must be created to cover interest. Therefore creating a perpetual need for money. This begets inflation & Bankruptcies. ~~Some~~ Some one has to lose. Inevitably the banks win. They will take your property if you can't pay your loan.
 - a loan they received for nothing. The money banks receive via deposits can be loaned out 9-fold. The banks invent deposits/loans out of thin-air. (The First Bank of Montgomery),

15

Jerome Daily
1969

our
system

→ Perpetual Wealth Transfer

Money is created out of Debt.

Society cannot ever be debt free under
our Fractional Reserve Banking system.

- How has Charney survived?

* Part II can easily be construed as conspiratorial

Emperors = Corporations

→ Debt, Inflation, Interest ← How they do it.

Stop supporting the system.

- ~~Devaluation~~ of currencies makes commodities cheap to other countries.
- Bechtel & Bolivia 1999 (water)

- The system is rigged from the get-go. There's no way you can win. Central Banking is rigged.
- The World Bank is U.S. controlled.
- The new war mongers are "terrorists"

~~negative~~

Coronary Heart Disease - 450 K die a year	}
2007 \$'s allocated = 36	
Terrorism - 68 people die a year	}
2007 \$'s = 161 Billion	

- Growing American Sentiment
= Corporatocracy = ^{negative}

Part III

- Social Engineering
- Politicians aren't elected to change things. They are elected to keep things the way they are.
~~are~~ ~~selected~~
- Self preservation is primary goal ←
Monetary system is @ the heart of this
- = Industry =
Can't afford to be ethical.
The only reason industry hires people is because it hasn't been automated.
If they cared, they wouldn't outsource.
- Morality-ism is the guide to all countries
Competition ~~leads~~ leads to
Wealth gap, corruption, class warfare, labor abuse.
- The well-being of people is always put ahead of monetary gain

<cont>

(3)

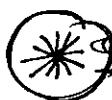

- Built in corruption is in the system.
- Dictatorship of the eliteist.
- Ron Paul is a fallacy?
- It's not politicians that can solve problems. (They aren't trained to).
It's technology.
- What improves our lives?
→ Technology ←

- Do we have the resources? Yes.

That's the only question.

We do have the resources.

Monetaryism gets in the way though.

 Scarcity increases profits. Not abundance 
~~Overproduction~~

Scarcity = Profit

Abundance = Lower profits

You can't ever expect all humans to act with ethics under our monetary system.

Greed is not natural. It's a by-product of the system.
You'll always have prisons as long as we live in scarcity.

"The Venus Project" - R. F.

Money is a barrier

Resource Based Economy Vs. Monetary System

Solutions

Energy

Geo-thermal is the key.

Transportation

Mag-Lev

Work

Machines, automation.

INCENTIVE (man)

They will arise

Education

civilization

<cont>

Today

- 90% of jobs can be phased-out & done by machines.
- This frees us to achieve
- Virtually all forms of crime are due to ^{the} monetary system.]
- US has the highest prison population in the world. ↙
- POVERTY = CRIME
(SCARCITY)

Access without ~~more~~ servitude

War is inevitable when you produce scarcity

Part 4

"The social values of our society which has manifested into perpetual warfare, corruption, oppressive laws, social stratification, irrelevant superstitions, environmental destruction & a despotic socially indifferent, profit oriented human class is fundamentally the result of a collective ignorance of 2 of the most basic insights humans can have about reality. The ~~organized~~ emergent/symbiotic aspect of ~~no~~ natural law."

We preserve out-dated structures. Monetarism confines us.
We ostracize thoughts who step outside the norm.

Time for a new social system. We have out-grown monetarism.

* The universe is fundamentally Emergent. *

Religion kills.
Religion divides.

There's no such thing as independence in nature.

- On a global scale, monetarism is like trying to win the lottery.
- Jim Dorey

⇒ Politicians are ~~irrelevant~~ irrelevant in nature

Weapons of mass creation.

Corporations are about scarcity not sustainability
