I do not keep data on purples through the coppers due to the non-liquidity.

***FF Rate Projected X date** is provided by me. Meaning, I'm asking the quesiton, "what are the odds in the FF Futures that the fed will raise/lower to **X** percent FF Rate, from the current (Actual) FF Rate?"

Volume is non-existent or too small to evaluate anything past 7 months out. This is why I'm only going out that far.
